

# Quick Installation Guide

Mobile Wi-Fi

\* Images are for demonstration only.

## LED Indicators

LED	Status	Explanation
(Wi-Fi)	On/Off	Wi-Fi is enabled or disabled.
(Internet)	On/Off	Internet service is available or unavailable.
(Battery)	Solid Green	Mobile Wi-Fi has enough power or is fully charged.
	Blinking Red	The battery level is lower than 10%.
	Blinking Green	Mobile Wi-Fi is charging.
	Off	Power is off.

❗ The LEDs will turn off automatically after idling for 30 seconds. To check the LED status, press the Power button to turn them on again.

## 1. Install the SIM Card and Battery

a. Remove the back cover.

b. Install your SIM card.

c. Install the provided battery.

d. Replace the cover.

1

Slide and lift up the cover.

2

Install your SIM card.

3

Put down and slide back the cover.

❗ SIM card requirement:

Micro SIM card  
✓

Nano SIM card +  
Provided SIM card adapter + Provided sticker  
✓

Standard SIM card  
✗

## 2. Connect to the Internet

a. Press and hold the Power button to power on the Mobile Wi-Fi.

b. Connect your wireless device to the Mobile Wi-Fi using the default SSID and Wireless Password.

\* You can also find the default SSID and Wireless Password on the product label under the battery.

😊 Enjoy the internet!

❗ If you cannot access the internet, refer to [FAQ > Q1](#).

• By default, Power Saving is enabled and the Mobile Wi-Fi will turn off Wi-Fi when no wireless devices are connected to it for 10 minutes. To resume the Wi-Fi connection, press the Power button.

# Managing Your Mobile Wi-Fi

Manage your Mobile Wi-Fi using any of the methods below. You can customize Wi-Fi settings, block Wi-Fi devices and more.

## tpMiFi App

1. Get the **tpMiFi** app from App Store or Google Play, or by scanning the QR code.

2. Connect your wireless device to the Mobile Wi-Fi.
3. Create a password to log in.

## Web Management Page

1. Connect your wireless device to the Mobile Wi-Fi. If it is a computer, make sure it is set to obtain an IP address automatically.
2. Launch a web browser and visit <http://tplinkmifi.net> or <http://192.168.0.1>. Create a password to log in.

-  For technical support, user manuals and more information, please visit <https://www.tp-link.com/support>, or simply scan the QR code.

# Charging Your Mobile Wi-Fi

## Method 1

Via a Wall Outlet (Recommended)

## Method 2

Via a Computer

- The Battery LED  will be solid green when the Mobile Wi-Fi is fully charged.
- The power adapter is not provided by TP-Link.

# FAQ (Frequently Asked Questions)

## Q1. What should I do if I cannot access the internet (the Internet LED doesn't light up)?

A. Log into the web management page (<http://tplinkmifi.net>), and check the following:

- **Check PIN status**

If the current SIM card status is **PIN Locked**, your SIM card is PIN protected and you need to unlock it using the PIN code provided by your mobile carrier.

- **Verify the mobile carrier parameters**

Go to **Advanced > Dial-up > Dial-up Settings**, then verify that the parameters (i.e. APN, username and password) provided by your mobile carrier are correct. If they are incorrect, enter the correct information or create a new profile, then save the settings.

- **Check the Data Roaming settings**

If your SIM card is operated in a roaming service area, go to **Advanced > Dial-up > Dial-up Settings**, enable **Data Roaming** and save the settings.

- **Check Mobile Data**

Go to **Advanced > Dial-up > Dial-up Settings** to verify that **Mobile Data** is On. If not, enable it and save the settings.

- **Check Data Limit**

Go to **Advanced > Data Usage Settings** to check whether your data usage has exceeded the Total/Monthly allowance.

## Q2. How do I restore the Mobile Wi-Fi to its factory default settings?

A. With the Mobile Wi-Fi powered on, remove the cover, then use a pin to press and hold the **Reset** button until all LEDs turn on momentarily.

Note: Restoring the device to its factory defaults will clear all your settings.

# Safety Information

- Keep the device away from water, fire, humidity or hot environments.
- Do not attempt to disassemble, repair, or modify the device. If you need service, please contact us.
- Do not use the device where wireless devices are not allowed.

### CAUTION!

- Avoid replacement of a battery with an incorrect type that can defeat a safeguard.
- Avoid disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
- Do not leave a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas. Do not leave a battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

### CAUTION!

- Risk of explosion if the battery is replaced by an incorrect type.
